PROFILE

Enthusiastic and motivated MSU student completing a Bachelor of Science, Computer Science, proficient in Java, Python, C++, C#, SQL, and Unity program seeking to expand knowledge in a professional environment.

EDUCATION

Bachelor of Science in Computer Science

December 2025

Mississippi State University, Starkville, MS

GPA: 3.93/4.00

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, C++, C#, SQL
- **Development Platforms:** Unity (Virtual Reality Development), OutSystems
- **Data Analysis & Visualization:** Power BI, Power Apps, Power Automate, Report Builder
- **AR/VR Technologies:**
 - **Oculus (Meta Quest):** Oculus SDK, Oculus Integration for Unity, Oculus Developer Hub, Meta Quest Developer Tools
 - **HTC Vive Family:** SteamVR SDK, VIVEPORT SDK
- **3D Modeling:** Blender, 3D Slicer (for medical image computing)
- **Research & Self-Learning:** Proficient in conducting independent research and learning new technologies

WORK EXPERIENCE

Student Researcher, Center for Cyber Innovation, Starkville, MS

June 2023 – Present

- Conduct extensive research and data analysis on various fuel sources for the Mississippi State OSSCAR project.
- Developing a network of the flow of the fuel sources for decision-making capabilities.
- Demonstrated ability to independently learn and apply new research methodologies and technologies.

Transmission Control Center Intern, Georgia Power, Atlanta, GA

May 2024 – August 2024

- Gained proficiency in utilizing tools such as Power BI, Report Builder, Power Automate, OutSystems, and SQL.
- Showcased adaptability and quick learning in mastering new software tools and platforms to deliver effective solutions.
- Fully developed 5 tools and solutions for the Floor Engineering team in support of transmission operations.
- Presented and walked through usage of developed tools to upper management.

VOLUNTEER

Lab Assistant, High Fidelity Virtual Environments Lab, Starkville, MS

February 2023 - Present

- Developed high fidelity virtual reality environments in Unity designed to be exact replicas of real-world settings for a colleague's Master's thesis.
- Actively engaged in the development of a VR-based solution for egg localization.
- Rigged a VR controller to capture EEG electrode positions on a head model and compared these coordinates with CT scan data to enhance accuracy and visualization.

- Applied innovative problem-solving techniques to real-world challenges, enhancing VR development skills.

LEADERSHIP INVOLVEMENT

National Officer, Boy Scouts of America

June 2022 – May 2023

- Served as the National Sea Scout Boatswain, where I let a cabinet in organizing goals and actions to facility and improve the Sea Scout program on a national level.
- Established a new diversity, equality, and inclusion subcommittee on the National Sea Scout Executive Committee.
- Successfully led initiatives that required quick adaptation and strategic planning.

Director of Service, Student Association

March 2024 – Present

- Leading the service subcommittee of the Presidential Cabinet.
- Implementing project and event ideas to make a difference on campus and in the community surrounding.
- Managing multiple projects simultaneously, showcasing strong organizational and multitasking skills.
